RE: Request for handbook

Dear Dist Rep,

Our councils are requesting the handbook 'The Rights of Indians and Tribes', the newest edition of the An American Civil Liberties Union handbook. Our councils would like to educate ourselves on our Rights so we can better 'protect' who we are as a Tribe. We have determined that this handbook will help 'pick and choose our battles' in a good way. Current and past Acts of congress will determine our future and we look forward to educating ourselves and moving forward!

Because our councils operate without a budget, we request our Dist 3 office to pay for the cost of the handbook. We appreciate the support the Dist. 3 office has given to our councils and cause(s).
