

Mission LIC Regular Meeting

May 20, 2014

Members Present: Donnie Headbird, Kimberly Needham, Karyn Wind, Bev Beaulieu

Members Absent: Leonard Headbird

Meeting called to order at 7:21 PM

Old Business:

Concerns about Trees Resort Road built on Headbird Land. Information given to the Council by Levi Brown of Leech Lake Land Dept. shows that the road is next to the land this information will be passed onto the individuals with concerns.

New Business:

Grand Opening for the New Center has been set for Saturday June 28, 2014. A Potluck dinner with a cook-out (weather Permitting) council will provide the hamburgers, brats and hot dogs. Bev will make flyers and get them distributed.

Contact Dan Charnoski to remove the remains of his trailer house from the Mission Corner area as it is an eyesore. Bev will get his current address and mail him a letter.

Kim gave us information on an Arts and Crafts grant but she wasn't given much information as it wouldn't come through on her computer she will get contact person's information so that we can apply and get for craft supplies for our classes we will be offering.

Bev passed on information regarding the Cigarette tax monies that the state is withholding that she received at LeRoy Fairbanks' open forum. We feel it would be nice to get these monies but to also get the interest that has been building up on it. If the roles were reversed the state would be demanding the interest from us.

Bev and Karyn will try to go see LeRoy Fairbanks tomorrow regarding the changes made to our building floor without any knowledge of these changes to the building plans by the Local Council as the extra space on the end had its purpose. Bev had tried to get the

Local Council on a Tribal Council meeting agenda but was not contacted as to when this meeting would be happening.

Meeting adjourned at 8:05 PM
